

24-HOUR CASH SPRINT

Laptop + WhatsApp + Email · No ads · Payments by M-Pesa / e-Mola / mKesh
Friday 2 October 11:00 → Saturday 3 October 11:00

THE PLAN IN ONE SENTENCE

Sell 3 fast, done-for-you digital services, priced in meticaïs and **paid upfront** by mobile money: first to people who already know you, then to local businesses. Deliver every order **the same day**, with Claude doing the heavy writing, so each happy client becomes your next Status post and referral.

Why this is the fastest honest money from a laptop in Mozambique

- **Warm contacts buy fastest.** They already trust you, so you don't need ads. Your WhatsApp Status reaches everyone who saved your number, for free.
- **Demand is real today.** Job seekers apply by email with a CV and cover letter (emprego.co.mz listings ask for exactly that). Small businesses sell through WhatsApp and Facebook, the biggest social network in Mozambique (about 5 million users), but most have no catalogue, no price list and no website.
- **Payment is instant.** M-Pesa, e-Mola and mKesh settle in seconds, so there are no platform payout delays.
- **Claude does 80% of the work.** A CV takes about 25 minutes, a 10-post pack about 60 minutes and a mini-site about 90 minutes.
- **Early month timing.** Most salaries were paid in the last week of September, so people have money now.

Money targets (honest numbers)

Level	Meticaïs	≈ US\$ (64 MT = \$1)	What it takes
Floor: must hit	5000 MT	≈ \$78	10 CVs at 500, or 3 WhatsApp setups + 1 CV with letter (800)
Target	15 800 MT	≈ \$247	8 CV packs (avg 600) + 3 WhatsApp setups + 2 post packs + 1 mini-site
Stretch	26 800+ MT	≈ \$420+	Target + 2 full business packages (5500 each)

Nobody can guarantee sales. What you control is the number of messages you send, how fast you reply and how fast you deliver. Hit the activity numbers on the scoreboard and the money follows.

What we are NOT doing (and why)

- **Fiverr/Upwork:** new profiles take weeks to get the first order and payouts take days.
- **Forex, crypto, betting or 'investment' groups:** that's gambling, and you can lose money.
- **Surveys or click-to-earn sites:** they pay pennies or are scams.
- **Doing students' assignments or exams:** that's academic fraud and it backfires. We only sell honest work.

ZERO-MISTAKES RULES: read before 11:00

Money and scams

- ☐ **1** **Never start work until the money shows in YOUR M-Pesa/e-Mola SMS or app.** Screenshots of a 'comprovativo' can be fake.
- ☐ **2** **'I sent you money by mistake, please send it back'** is a classic scam. Never send money back. Tell them to ask their operator (Vodacom/Movitel/Tmcel) to reverse it.
- ☐ **3** **Never share your PIN or any code you receive by SMS**, and never ask clients for theirs.
- ☐ **4** **Log every payment immediately** with the name, amount, wallet, reference and time.
- ☐ **5** **Businesses pay 50% first and 50% before the final files.** Show previews (screenshots) before the balance is paid.

Protect your WhatsApp number (it's your whole business)

- ☐ **6** **No mass copy-paste.** Personalise the first line every time. Send at most 15 messages to new businesses per hour, and no links in the first message.
- ☐ **7** WhatsApp has been rolling out **limits on messages to people who aren't your contacts and don't reply**, and many messages to new contacts in a short time can get a number restricted. That's why S4 asks a question: a reply makes it a conversation.
- ☐ **8** **'Não tenho interesse'** means reply 'Obrigado, bom dia!' and never message them again. Blocks and reports get numbers banned.
- ☐ **9** **Only post in groups where selling is allowed**, only once per group, and apologise to the admin.

Quality and honesty

- ☐ **10** **Read every name, phone number, date and price twice** before sending.
- ☐ **11** **Never invent experience, degrees or references** in a CV. Use only what the client gives you.
- ☐ **12** **Don't promise what you can't control:** 'you'll get the job', 'guaranteed sales', 'sworn translation', 'Google verification today'.
- ☐ **13** **Send the right file to the right person.** Name every file with the client's name and check the chat header before you tap send.
- ☐ **14** **Client data is private.** Never post a CV or a client's details on Status without blurring them and getting the client's OK.
- ☐ **15** **Use only client photos or Canva free elements**, never images copied from Google.

Energy

- ☐ **16** **Eat at 12:30 and 18:30. Drink water. Sleep 22:00-06:30.** Do one task at a time, and finish it before starting the next.

THE 24-HOUR CHECKLIST: tick every box

BLOCK 1 · FRIDAY 11:00 – 12:30 · Setup + warm launch

- ☐ **11:00 WhatsApp Business profile.** If you already use WhatsApp Business: add a name (e.g. '[Your name] · Serviços Digitais'), a clear face photo, a description, hours and email. If you use normal WhatsApp: switching takes about 10 min and keeps your chats, but only do it if your chats are backed up. Otherwise skip this step, because the plan works on normal WhatsApp too.
- ☐ **11:10 Payment details ready.** M-Pesa number + exact account name, plus e-Mola/mKesh/NIB if you have them. Save script S9 as a quick reply (Business tools → Quick replies → '/pagar').
- ☐ **11:15 Lead tracker.** Open Google Sheets or Excel and copy the columns from the tracker page at the end of this PDF.
- ☐ **11:20 Proof sample #1: your own CV.** Paste your real details into Claude with Prompt A, format it and export a PDF. This is your portfolio piece (keep it honest).
- ☐ **11:35 Proof sample #2: 3 posts in Canva** for an imaginary 'Salão Exemplo' (Prompt D). Save them as images.
- ☐ **11:45 Post Status #1 and #2** (scripts S2, S2-2).
- ☐ **11:50 Warm message to 40 contacts, ONE BY ONE, with their name** (S1 / S1-B). Start with: friends who are job-hunting, recent graduates, family, ex-classmates and people who own a business.
- ☐ **12:15 Post in 3-5 groups you're already in** where selling is allowed (S3): church, university, alumni, neighbourhood and job-seeker groups.
- ☐ **12:25 Reply to everyone within 5 minutes.** Send interested people S9 (payment) + S10 (intake) together.

CHECKPOINT 12:30

BLOCK 2 · FRIDAY 14:00 – 18:30 · Close, deliver, open the business pipeline

- ☐ **14:00** **Clear every unread message.** Check each payment **in your own M-Pesa SMS/app**, not on a screenshot. Log it in the tracker.
- ☐ **14:10** **Deliver paid CV orders**, oldest payment first (SOP 1, about 25 min each). Send with S11.
- ☐ **15:00** **Build a 40-business lead list** from Google Maps + Facebook (search terms on the leads page). Note the name, WhatsApp, email and one thing missing (no catalogue, no prices, no website, dead Facebook page).
- ☐ **15:30** **Business WhatsApp round 1:** 15 permission-first messages (S4). Personalise the first line. Send no more than 15 an hour.
- ☐ **15:45** **Email round 1:** 15 personalised emails (S7 local / S8 tourism), with no attachments.

- ☐ **17:15** **Business WhatsApp round 2:** the next 15 messages. Many shops close around 17:30–18:00, so send before that.

- ☐ **07:00** **Status #5: final call** (S2-5).

SCOREBOARD: fill in at each checkpoint

Activity	Goal by 12:30	Actual	Goal by 18:30	Actual	Goal by 22:00	Actual	Goal by Sat 11:00	Actual
Warm messages (one by one)	40		40		70		70	
Status posts	2		3		4		5	
Group posts	3		5		5		5	
Business WhatsApps	0		30		30		45	
Emails sent	0		15		30		30	
Replies	8		20		35		50	
Paid orders	1		4		8		14	
MT received	500		3000		8000		15 800	

If you're behind at a checkpoint, don't panic and don't discount. Send more messages. Volume of honest, personal messages is the only lever without ads.

Where to find leads (no ads)

1. Your phone (the fastest money). Scroll your WhatsApp contacts A→Z and mark each person: **J** = job seeker (CV), **N** = owns a business (offer E), **C** = connector who knows many people (ask for referrals).

2. Google Maps: search these, replacing [cidade] with Maputo, Matola, Beira, Nampula, Quelimane, Tete, Chimoio, Pemba, Xai-Xai or Inhambane:

salão de beleza [cidade] · barbearia [cidade] · restaurante [cidade] · take away [cidade] · pastelaria [cidade] · loja de roupa [cidade] · boutique [cidade] · ferragem [cidade] · clínica dentária [cidade] · escola de condução [cidade] · centro de explicação [cidade] · imobiliária [cidade] · rent a car [cidade] · lodge / guest house Tofo, Vilankulo, Bilene, Ponta do Ouro, Inhambane

Pick these first: they list a phone number, have good reviews (customers = money) but few photos, no website and no prices online. Note the one specific thing missing, because that goes in your first line.

3. Facebook: search the same terms and open Pages. The 'About' section shows WhatsApp and email. Pages that post rarely or post poor images are perfect leads for the 10-post pack.

4. Email leads: lodges, guesthouses, restaurants, private schools and clinics that show an email on Maps, Facebook or their website. Use English (S8) for tourism businesses with foreign guests.

COPY-PASTE SCRIPTS (Portuguese, for your customers)

Replace everything in [brackets]. Never send a script with a [bracket] left in it. Personalise the first line every time, because identical messages to many people get WhatsApp numbers banned. All scripts are also in **scripts-copy-paste.md** so you can copy them without broken line breaks.

DELIVERY: step by step, with Claude

When an order is paid, open Claude, paste the right prompt plus the client's answers, then check, format and send. **You** are responsible for the final check, so read every name, number, date and price twice.

SOP 1 · CV / cover letter (25-35 min)

- ☐ Payment confirmed in your wallet. Intake answers received (S10).
- ☐ Paste the answers into Claude with **Prompt A** (and **Prompt B** for a cover letter). Ask the client about anything marked [FALTA].
- ☐ Paste into Google Docs or Word using a clean 1-2 page layout. Add a photo only if the client wants one.
- ☐ Check the name, phone, email and dates twice. A wrong phone number means the client never gets the call.
- ☐ Export the PDF and DOCX, named CV_NomeApelido.pdf. Send with S11 and log it in the tracker.

SOP 2 · WhatsApp Business setup (60-90 min)

- ☐ 50% confirmed. Intake received (S10-B).
- ☐ **Prompt C** writes the description, greeting, away message, 5 quick replies and catalogue texts.
- ☐ Send the texts to the owner, then do a 20-min call or visit while THEY tap: Settings → Business tools → Business profile / Catalogue / Greeting message / Away message / Quick replies. They paste, you guide.
- ☐ **Never ask for their 6-digit WhatsApp code.** Scammers ask for that, and it destroys trust.
- ☐ Make the link <https://wa.me/258XXXXXXXXXX> (258 + the 9-digit number, no '+' or spaces). Open it to test it.
- ☐ In Canva, make an A4 poster: 'Fale conosco no WhatsApp' + the business name + a QR code (Canva's QR code app) pointing to the wa.me link. Scan it with your phone to test it, then send it as a PDF for printing.
- ☐ Collect the other 50%, confirm it, then send S11.

SOP 3 · 10-post pack (60 min)

- ☐ 50% confirmed. Get the logo, 5-10 real photos, products and prices.
- ☐ **Prompt D** writes the 10 headlines and captions.
- ☐ In Canva (free), build one template, duplicate it 10 times and swap the photo and headline. Use only the client's photos or Canva's free elements, never images copied from Google.
- ☐ Export PNGs and send them with the captions as text. Collect the balance and send S11.

SOP 4 · Mini-site + QR (90 min)

- ☐ 50% confirmed. Intake (S10-B) + 3-6 photos + their Google Maps link.
- ☐ **Prompt E** writes the copy.
- ☐ Build it at sites.google.com with this layout: header, a 'Falar no WhatsApp' button (wa.me link), prices, photos, an embedded Google Map and hours.
- ☐ Publish (sites.google.com/view/nomedonegocio). Test on a phone that the button opens the WhatsApp chat.
- ☐ Share → add the client's Gmail as Editor. Make a QR poster for the site. Collect the balance and send S11.

SOP 5 · Translation (15 min per page)

- ☐ 100% confirmed. Run **Prompt F**, then proofread every name, number and price against the original.
- ☐ Write 'Tradução não oficial' at the top. Never present it as a sworn or certified translation.
